⇒ SOLUTIONS FOR
PEOPLE AND PLANET

Welcome to the place where local innovators
build solutions for people and planet

At the Westerhuis in the Jordaan area,
walking distance from Central Station ...

welcome to **HUB** Amsterdam

The Hnb is a space for social innovators to work, meet, connect, and inspire.

Members come to Hubs across the globe to collaborate, access market opportunities and capital, build community, and scale ideas.

It is a place-based and online community of entrepreneurs, freelance professionals, artists, funders, students, mentors, community leaders... amazing people, doing incredible things.

We borrowed from the best of a member's club, business incubator, idea lab, and the comforts of home to create a different kind of space. A habitat for innovators.
